SPECIAL EDUCATION GRANT PROGRAMS

Introduction

This application for the American Recovery and Reinvestment Act (ARRA) funds is a supplemental application to the local education agency's (LEA) FY2010 IDEA grant.

The purpose of this Supplemental IDEA, Part B, Sections 611 and 619 grant is to provide the stimulus funds from the ARRA to eligible applicants (LEAs) to assist with the excess costs of providing special education and related services to children with disabilities (as defined in 34 C.F.R. Sections 300.16 and 300.202). Amounts provided to the local education agency (LEA) must be expended in accordance with the applicable conditions as stated in the Act, 34 C.F.R. Section 300.202; see also, <http://idea.ed.gov/download/finalregulations.pdf>.

The CSDE anticipates awarding fifty (50) percent of the IDEA ARRA, Part B grants (both 611 and 619 funds) after April 30, 2009, to LEAs whose application is submitted and subsequently approved by the CSDE. The other fifty (50) percent will be awarded after September 30, 2009. These awards will be in addition to the regular 2009-10 IDEA standard, Part B grant awards. Together, the ARRA and standard fiscal year awards will constitute a district's total FY 2010 IDEA Part B grant allocations. The deadline for applying for the IDEA ARRA funds is July 1, 2009.

An LEA will need to complete a separate 611/619 budget template and budget narrative as part of their application. In addition, separate assurances are necessary to accompany the ARRA application and these are included in this supplemental grant application.

In order to receive the remaining fifty (50) percent of IDEA ARRA, Part B funds, an LEA must submit for review and approval by the CSDE, an amendment to its FY 2010 application to address the recordkeeping and reporting requirements under the ARRA. The LEA will receive the specifics to this amendment when published by the federal government. If additional assurances are necessary, they will be sent under separate cover. Both the IDEA ARRA Part B, Sections 611 and 619 grant applications will become a supplement to the district's regular 2009-10 IDEA grant application.

The LEA should use the IDEA ARRA funds expeditiously. All IDEA ARRA funds must be obligated by June 30, 2011. Costs are allowable beginning February 17, 2009, the effective date of the ARRA grants.

Funds provided to an LEA under IDEA must not be used to reduce the level of expenditures for the education of children with disabilities made by the LEA from local funds below the level of those expenditures for the preceding year (as defined by 34 C.F.R. 300.203). Funds must be used to supplement, not supplant state, local and other federal funds (as defined by 34 C.F.R. 300.164(a)). Supplanting occurs when the LEA uses federal monies to pay for a position or service that was previously paid for by local funds. Please refer to the Special Education/RFP section of the CSDE's website (<http://www.sde.ct.gov>) for information that has been presented at various meetings on both supplement, not supplant and maintenance of effort (MOE).

School districts must ensure that expenditures of grant funds adhere to the purpose and intent of the IDEA. Eligible school districts must meet the requirements contained in the IDEA, including the excess cost requirement (34 C.F.R Section 300.202) and the prohibition against commingling. LEAs must account for the funds separately, allowing for payments under both the IDEA standard and IDEA ARRA grants, as well as including an audit trail for payments under both the IDEA standard and IDEA ARRA grants.

The application for the grant programs under Sections 611 and 619 must address the intent of the IDEA and should consider the ARRA goals and the State Board of Education's goals, as detailed below:

ARRA Goals:

Goal 1: Spend funds quickly to save and create jobs;

Goal 2: Improve student achievement through school improvement and reform;

Goal 3: Ensure transparency, reporting and accountability; and

Goal 4: Invest one-time ARRA funds thoughtfully to minimize the "funding cliff".

State Board of Education's Goals:

Goal 1: High-quality preschool education for all students;

Goal 2: High academic achievement of all students in reading,
writing, mathematics and science;

Goal 3: High school reform;

Goal 4: Sheff/Racial Imbalances; and

Goal 5: Teacher Effectiveness and Distribution

The CSDE encourages school districts to develop the application with a "whole child perspective." Grantees should coordinate with other federal and state programs.

Budget ED114

DIRECTIONS: Applicants must complete and submit a State Budget Form, ED 114, for each funding source, IDEA/ARRA, Section 611 and/or Section 619 entitlement. **NOTICE OF INTENT TO USE IDEA FUNDS FOR
COORDINATED EARLY INTERVENING SERVICES (CEIS)
AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009
(ARRA 2009)**

Under Section 300.226, “an LEA may not use more than 15 percent of the amount such agency receives under Part B of the Act for any fiscal year...to develop and implement coordinated, early intervening services, which may include interagency financing structures, for students in kindergarten through Grade 12 (with a particular emphasis on students in kindergarten through Grade three) who are not currently identified as needing special education or related services, but who need additional academic and behavioral support to succeed in a general education environment.

In implementing coordinated, early intervening services under this section, an LEA may carry out activities that include: (1) Professional development for teachers and other school staff to enable such personnel to deliver scientifically based academic and behavioral interventions, including scientifically based literacy instruction, and, where appropriate, instruction on the use of adaptive and instructional software; and (2) Providing educational and behavioral evaluations, services and supports, including scientifically based literacy instruction...

Reporting: Each LEA that develops and maintains coordinated, early intervening services under this section must annually report to the CSDE on:

-
1. The number of children served under this section.
 2. The number of children served under this section, who subsequently received special education and related services under Part B of the Act during the preceding two year period.
-

Funds made available to carry out this section may be used to carry out coordinated, early intervening services aligned with activities funded by, and carried out under the Elementary and Secondary Education Act (ESEA) if those funds are used to supplement, and not supplant, funds made available under the ESEA for the activities and services assisted under this section.”
